Cloud phone system

Every department on one phone system.

A phone system that runs on the platform your staff already sign into: built for front desks, department lines, and anyone who takes calls.

- **Voicemail with transcript**
  Messages arrive in email, transcribed, so the morning's calls get read between meetings.
- **Auto attendant and hours**
  Callers reach the right department on the first try, with holiday and after-hours handling.
- **Ring groups and coverage**
  A department line rings a group of phones, not just one desk.
- **Desk phone or computer**
  The same extension answers at a desk phone or a computer.
